For repairs,	50.00
For high school,	450.00
For laboratory supplies,	30.00

Signed,

A. TOZIER,
C. S. COOK,
L. P. FOSTER.

Superintendent's Report.

TO THE CITIZENS OF UNITY;

The schools have, as a whole, made good progress during the year. We have been very fortunate in securing very able teachers, and it is the teachers who make the school.

The pupils have done excellent work, as was shown at the exhibit of school work, held at the Village recently. Those of you who were fortunate enough to see the exhibit can judge for yourselves. The town, for the past few years, has been very generous in the school appropriations, and the result is plainly seen in our schools today. I hope the town will continue to be as generous in its appropriations as in the past, and that the patrons of the school will give their hearty support and cooperate with the teachers and school officers in their efforts to educate our youth. By working together we can accomplish much.

THE HIGH SCHOOL.

Our high school is improving each year. The pupils have learned the art of applying themselves and have settled down to the business of procuring an education in earnest.

We were fortunate to secure the services of two excellent teachers, and they have been untiring in their efforts for the advancement of the pupils and the standing of the school.

The first graduation will be at the close of this year.

There were 16 pupils enrolled at the beginning of the term, and a class of 10 or 12 will be ready to enter next year, or next Sept.

The school is well equipped, having a large recitation

room, a physical laboratory and a chemical laboratory, and is well supplied with text-books. The chief expense in the future will be the teachers' salaries.

For the benefit of these who are not familiar with the school I will append the course of study as approved by the State Supt. of schools and State School Inspector.

First Year.

English 5
 Algebra 5
 History, Greek and Roman 5
 Physical Geography 5 or Latin 5
